Form ADV Part 2A – Firm Brochure

Dated: November 22nd, 2022

This Brochure provides information about the qualifications and business practices of Zizzi Investments, LLC. If you have any questions about the contents of this Brochure, please contact us at 717-961-9456. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Zizzi Investments, LLC is a registered investment adviser. Registration does not imply a certain level of skill or training.

Additional information about Zizzi Investments, LLC also is available on the SEC's website at www.adviserinfo.sec.gov, which can be found using the firm's identification number, 322664.

Item 2: Material Changes

Since becoming approved on 10/7/2022, the following changes have been made to this version of the Disclosure Brochure:

- Item 4 - Services have been updated.
- Item 5 - Fees have been updated.

From time to time, we may amend this Brochure to reflect changes in our business practices, changes in regulations, and routine annual updates as required by securities regulators. Either this complete Brochure or a Summary of Material Changes shall be provided to each Client annually and if a material change occurs in the business practices of Zizzi Investments, LLC.

Item 4: Advisory Business

Description of Advisory Firm

Zizzi Investments, LLC is an Investment Adviser principally located in the state of Pennsylvania. We are a limited liability company founded in April 2022. Zizzi Investments, LLC became registered in October 2022. Colin Zizzi is the principal owner and Chief Compliance Officer (“CCO”).

As used in this brochure, the words “ZI”, “we”, “our firm”, “Advisor” and “us” refer to Zizzi Investments, LLC and the words “you”, “your” and “Client” refer to you as either a client or prospective client of our firm.

Introductory Call

A complimentary, no obligation phone call is offered by ZI to determine the scope of services needed from and offered to a prospective client before an engagement begins. If both parties decide to move forward, then no later than at the time of entering into a written agreement, ZI will provide the client with a copy of the ADV Part 2 brochure and Privacy Policy. Once an engagement is in place, further discussion and analysis is conducted to obtain information from the client on financial needs, goals, investment management, and other topics.

Types of Advisory Services

ZI is a fee-only firm, meaning the only compensation we receive is from our Clients for our services. From time to time, ZI recommends third-party professionals such as attorneys, accountants, tax advisors, insurance agents, or other financial professionals. Clients are never obligated to utilize any third-party professional we recommend. ZI is not affiliated with nor does ZI receive any compensation from third-party professionals we may recommend.

Financial Planning Services

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address some or all of the following areas of concern. The Client and ZI will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

- **Business Planning:** We provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.

- **Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).
- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.
- **Financial Goals:** We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.
- **Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial

independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance (“self-insuring”).
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency,” with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

ZI offers the following Financial Planning Services

Initial Financial Planning Engagement. Upon engaging the firm for creation of an initial financial plan, ZI is responsible for obtaining and analyzing all necessary qualitative and quantitative information from the Client that is essential to understanding the Client’s personal and financial circumstances; helping the Client identify, select, and prioritize certain financial goals while understanding the effect that pursuing one goal may have on other potential goals; assessing the Client’s current course of action and alternative courses of action to identify required changes that provide the best opportunity for the client to meet their financial goals; developing & presenting financial planning recommendations based on the aforementioned actions while including all information that was required to be considered in preparing the recommendations.

Ongoing Financial Planning. This service involves working one-on-one with a financial planner (“planner”) over an extended period of time. Through this ongoing arrangement, Clients are expected to collaborate with the planner in the implementation of their financial plan (the “plan”). The planner will monitor the plan, recommend any appropriate changes and ensure the plan is up-to-date as the Client’s situation, goals, and objectives evolve.

Project-Based Financial Planning. We provide project-based financial planning services on a limited scope one-time engagement. Project-Based Financial Planning is available for Clients looking to address specific questions or issues. The Client may choose from one or more of the above topics to cover or other areas as requested and agreed to by ZI. For Project-Based Financial Planning, the Client will be ultimately responsible for the implementation of the financial plan.

Investment Management Services

Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background. Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as risk tolerance and tax considerations.

We primarily advise our Clients regarding investments in stocks, bonds, mutual funds, ETFs, U.S. government and municipal securities, and cash and cash equivalents. We may also provide advice regarding investments held in Client's portfolio at the inception of our advisory relationship and/or other investment types not listed above, at the Client's request.

When we provide investment management services, Clients grant us limited authority to buy and sell securities on a discretionary basis. More information on our trading authority is explained in Item 16 of this Brochure. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Retirement Plan Management

Our firm provides retirement plan services to employer plan sponsors on an ongoing basis. Such services consist of assisting employer plan sponsors or plan named fiduciaries in buying and selling securities within the Plan on a discretionary basis. More information on our trading authority is explained in Item 16 of this Brochure. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. As the needs of the plan sponsor dictate, areas of advising could also include: [design of investment policy statement, investment review and recommendations, fee analysis, participant education, and vendor searches & analysis].

In providing retirement plan services, our firm does not provide any advisory services with respect to the following types of assets: employer securities, real estate (excluding real estate funds and publicly-traded REITs), participant loans, non-publicly traded securities or assets, other illiquid investments, or brokerage window programs (collectively, "Excluded Assets").

Certain plans and/or clients that we may provide services to are regulated under the Employee Retirement Income Securities Act of 1974 ("ERISA"). We will provide employee benefit plan services to the plan sponsor and/or fiduciaries as described above for the fees set forth in Item 5 of this

brochure. We are not subject to any disqualifications under Section 411 of ERISA. In performing fiduciary services, we are acting as an “investment manager” as defined in section 3(38) of ERISA pursuant to section 402(c)(3) of ERISA.

Client Tailored Services and Client Imposed Restrictions

We tailor the delivery of our services to meet the individual needs of our Clients. We consult with Clients initially and on an ongoing basis, through the duration of their engagement with us, to determine risk tolerance, time horizon and other factors that may impact the Clients’ investment and/or planning needs.

Clients are able to specify, within reason, any restrictions they would like to place as it pertains to individual securities and/or sectors that will be traded in their account. All such requests must be provided to ZI in writing. ZI will notify Clients if they are unable to accommodate any requests.

Wrap Fee Programs

We do not participate in wrap fee programs.

Assets Under Management

As of July 2022, ZI has \$0 in discretionary and \$0 in non-discretionary assets under management.

Item 5: Fees and Compensation

Please note, unless a Client has received this brochure at least 48 hours prior to signing an Advisory Contract, the Advisory Contract may be terminated by the Client within five (5) business days of signing the Advisory Contract without penalty.

How we are paid depends on the type of advisory services we perform. Below is a brief description of our fees, however, you should review your executed Advisory Contract for more detailed information regarding the exact fees you will be paying. No increase to the agreed-upon advisory fees outlined in the Advisory Contract shall occur without prior Client consent.

We do not require or solicit prepayment of more than \$500 in fees six months or more in advance of rendering the service.

Initial Financial Planning Engagement

Fees range from \$2,000 to \$5,000 based on a variety of factors including complexity and client needs. Half of the fee is due upon signing the engagement and the remainder upon delivery of the financial plan. Fees are negotiable. Upon delivery of the plan, clients may determine whether to self-implement or engage Zizzi Investments for Ongoing Financial planning and Investment Management.

Ongoing Financial Planning

Upon delivery of an Initial Financial Plan, Clients may work with ZI for ongoing implementation and monitoring of their financial plan over an extended period of time. Our annual fee for this service begins at \$2,400 per year, and will be billed monthly in arrears. This fee may be offset by fees billed for Investment Management services. The fee is dependent upon variables including the specific needs of the Client, complexity, estimated time, research, and resources required to provide services to you, among other factors we deem relevant. Fees are negotiable and the final agreed upon fee will be outlined in your Advisory Contract.

Project-Based Financial Planning

We charge an hourly fee for Project-Based Financial Planning. Project-Based Financial Planning engagements are offered at an hourly rate of \$250 per hour, with a two hour minimum engagement. The fee may be negotiable and the final agreed upon fee will be outlined in your Advisory Contract. Fees are due upon completion of the services. ZI will not bill an amount above \$500 more than 6 months or more in advance of rendering the services.

Investment Management Services

Fees for Investment Management Services are based on a percentage of assets under management or a combination of a percentage of assets under management and a fixed fee in accordance with the following fee schedule and may be negotiable:

Assets Under Management	Annual Advisory Fee
\$0 - \$500,000	1.00%
\$500,001 - \$1,000,000	0.80%
\$1,000,001 - \$1,500,000	0.60%
\$1,500,000 - \$2,000,000	0.40%
\$2,000,000 and above	0.20%
<i>Minimum Annual Fee: \$2,500</i>	

The annual advisory fee is paid monthly in arrears based on the value of Client’s account(s) as of the last day of the billing period. The advisory fee is a blended tier. In determining the advisory fee, we may allow accounts of members of the same household to be aggregated. ZI relies on the valuation as provided by Client’s custodian in determining assets under management. ZI has a minimum annual fee of \$2,500, however, fees for this service will not exceed 3% of assets under management. This minimum may be reduced or waived at ZI’s discretion.

Our advisory fee is prorated for any partial billing periods occurring during the engagement, including the initial and terminating billing periods. Clients may make additions or withdrawals from their account at any time; however, ZI reserves the right to adjust our advisory fees on a pro-rata basis on account of any such cash-flow transactions. ZI may reserve the right to require clients to complete the Financial Planning process before entering into Investment Management Service.

Examples for Fees for Investment Management

Example 1: A Client has \$1,000,000 under our management as of the last day of the billing cycle. The Client would pay 1.00% on the first \$500,000 and 0.80% on the remaining balance. The

monthly fee is determined by the following calculation: $((\$500,000 \times 1.00\%) + (\$500,000 \times 0.80\%)) \div 12 = \750 .

Example 2: A Client has \$100,000 under our management as of the last day of the billing cycle. The Client would pay 1.00% of assets under management, equating to \$83.33 $(\$100,000 \times 1.00\% \div 12)$. Since ZI, minimum fee is \$208.33 $(\$2,500/12)$ per month, the Client will be charged the remaining balance of \$125 from an account of their choosing.

Retirement Plan Management

ZI charges an upfront fee of \$2,500 to initiate plan design, recordkeeping vendor search, creation of initial investment policy statement and investment menu, and an initial employee education and enrollment meeting which may be conducted virtually or in-person, depending on client location. Half of the upfront fee is due at the beginning of the engagement, and the remainder is due upon completion of initial plan setup.

The fee is based on a percentage of assets under management and is negotiable. The annualized fees for retirement plan investment consulting services are based on the following fee schedule:

Assets under Management	Annual Advisory Fee
\$0 - \$2,000,000	0.50%
\$2,000,001 - \$3,000,000	0.45%
\$3,000,001 - \$4,000,000	0.40%
\$4,000,001 - \$5,000,000	0.35%
\$5,000,001 - \$10,000,000	0.30%
\$10,000,001 - \$20,000,000	0.25%
20,000,001 and above	\$50,000 fixed fee

The annual advisory fee is paid quarterly in arrears based on the value of Client's account(s) as of the last day of the billing period. The advisory fee is a tiered fee. For example, for assets under management of \$1,000,000, a Client would pay 0.50%. For accounts that exceed \$20,000,000 the fixed fee would either be billed directly to the plan sponsor or deducted from plan assets by the custodian.

This does not include fees to other parties, such as record keepers, custodians or third-party administrators. ZI relies on the valuation as provided by Client's custodian in determining assets under management. Our advisory fee is prorated for any partial billing periods occurring during the engagement, including the initial and terminating billing periods.

Fee Payment

For Investment Management services, we deduct our advisory fee from one or more account(s) held at an unaffiliated third-party custodian, as directed by the Client. Please refer to Item 15 of this Brochure regarding our policy on direct fee deduction. Clients may also pay by electronic funds transfer (EFT) or check.

For Financial Planning services, fees are paid by electronic funds transfer (EFT) or check.

For Retirement Plan Management services, fees are either paid directly by the plan sponsor or deducted directly from the plan assets by the custodian. Please refer to Item 15 of this Brochure regarding our policy on direct fee deduction. Clients may also pay by electronic funds transfer (EFT) or check.

For all services, we may use an independent third party payment processor in which the Client can securely input their banking information and pay their fee. We do not have access to the Client's banking information at any time. The Client will be provided with their own secure portal in order to make payments.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending custodians for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

Clients may incur fees from third-party professionals such as accountants and attorneys that ZI may recommend, upon Client request. Such fees are separate and distinct from ZI's advisory fees.

Terminations and Refunds

For Investment Management and Retirement Plan Management services, the Advisory Contract may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the Advisory Contract. Clients will be responsible for payment of fees up to the date of termination.

For Ongoing Financial Planning services, the Advisory Contract may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the Advisory Contract. Clients will be responsible for payment of fees up to the date of termination, based on the percentage of work completed by the Advisor.

For Initial Financial Planning Engagement and Project-Based Financial Planning services, this service is not an ongoing engagement, thus upon receipt of the final fees, the Advisory Contract will automatically be terminated. Clients may terminate at any time provided written notice. If fees are paid in advance, a prorated refund will be given, if applicable, upon termination of the

Advisory Contract for any unearned fee. For fees paid in arrears, Client shall be charged a pro-rata fee based upon the percentage of the work done up to the date of termination.

Sale of Securities or Other Investment Products

Advisor and its supervised persons do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning and investment management services to individuals, high net-worth individuals, pension and profit sharing plans, charitable organizations and corporations or other businesses.

We do not have a minimum account size requirement.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Loss

Below is a brief description of our methods of analysis and primary investment strategies.

Methods of Analysis

Fundamental analysis involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Modern Portfolio Theory (MPT)

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far

more influence on long-term portfolio performance than the selection of individual securities.

- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

Mutual Fund and/or ETF Analysis: We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in other funds in the Client's portfolio. In addition, we monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the fund or ETF less suitable for the Client's portfolio.

Investment Strategies

Asset Allocation

In implementing our Clients' investment strategy, we begin by attempting to identify an appropriate ratio of equities, fixed income, and cash (i.e. "asset allocation") suitable to the Client's investment goals and risk tolerance.

A risk of asset allocation is that the Client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of equities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the Client's goals. We attempt to closely monitor our asset allocation models and make changes periodically to keep in line with the target risk tolerance model.

Passive & Active Investment Management

Passive and Active Investment Management

We may choose investment vehicles that are considered passive, active, or a combination of both styles.

Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve a desired relationship between correlation, risk and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio.

Active investing involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark. Actively managed funds are also designed to reduce volatility and risk.

We may engage in both passive and active investing in Client's portfolio. However, we strive to construct portfolios of funds and individual securities that we believe will have the greatest probability for achieving our Clients' personal financial goals with the least amount of volatility and risk rather than attempt to outperform an arbitrary index or benchmark.

Specific investment selections are based on a number of factors that we evaluate in order to select, what we believe to be, the highest quality funds or individual securities for our Clients. These factors include but are not limited to underlying holdings of funds, percentage weighting of holdings within funds, liquidity, tax efficiency, bid/ask spreads, and other smart/strategic beta factors. These factors may or may not result in the lowest cost ETFs and mutual funds available when utilizing funds in a Client's portfolio, but we strive to keep internal fund expenses as low as possible.

Alternative Investments. Though ZI's primary investment strategy is Passive & Active Investment Management, ZI and its representative may from time to time recommend less traditional assets (sometimes called "alternative investments") in combination with more traditional assets like stocks and bonds, when suitable. Alternative investments can include: commodities, currency hedging, direct lending, precious metals, private equity, venture capital, among others. Alternative investments may be accessed in multiple ways, including, but not limited to, Direct Investment, Pooled Investment Vehicles, and Private Investment Funds.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Turnover Risk: Actively managed mutual funds tend to have a higher turnover rate than passive funds. A high portfolio turnover would result in higher transaction costs and in higher taxes when

shares are held in a taxable account. These factors may negatively affect the account's performance.

Limited markets: Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Bank Obligations including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

Options and other derivatives carry many unique risks, including time-sensitivity, and can result in the complete loss of principal. While covered call writing does provide a partial hedge to the stock against which the call is written, the hedge is limited to the amount of cash flow received when writing the option. When selling covered calls, there is a risk the underlying position may be called away at a price lower than the current market price.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above (premium) or below (discount) their net asset value and an ETF purchased at a premium may ultimately be sold at a discount; (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Item 9: Disciplinary Information

Criminal or Civil Actions

ZI and its management persons have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

ZI and its management persons have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

ZI and its management persons have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of ZI or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer Affiliation

Neither ZI or its management persons is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

Other Affiliations

Neither ZI or its management persons is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, commodity trading advisor, or an associated person of the foregoing entities.

Related Persons

Neither ZI or its management persons have any relationship or arrangement with any related parties.

Colin Zizzi is currently a licensed insurance agent, however, he no longer sells any insurance products, and is not affiliated with any insurance companies. Colin Zizzi will not sell any insurance products to clients or prospective clients of ZI.

Brennan Zizzi is currently a licensed insurance agent, however, he no longer sells any insurance products, and is not affiliated with any insurance companies. Colin Zizzi will not sell any insurance products to clients or prospective clients of ZI

Recommendations or Selections of Other Investment Advisers

ZI does not recommend or select other investment advisers for our clients.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm has a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This Code of Ethics does not attempt to identify all possible conflicts of interest, and compliance with each of its specific provisions will not shield our firm or its access persons from liability for misconduct that violates a fiduciary duty to our Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Access persons shall offer and provide professional services with integrity.
- Objectivity - Access persons shall be objective in providing professional services to Clients.
- Competence - Access persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Access persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Access persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Access persons conduct in all matters shall reflect the credit of the profession.
- Diligence - Access persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its access persons, or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, principal transaction, among others.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm, its access persons, and its related persons may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest, our Code of Ethics may require that we restrict or prohibit access persons' transactions in specific reportable securities. Any exceptions or trading pre-clearance must be approved by ZI's Chief Compliance Officer in advance of the transaction in an account. ZI maintains a copy of access persons' personal securities transactions as required.

Trading Securities At/Around the Same Time as Client's Securities

From time to time our firm, its access persons, or its related persons may buy or sell securities for themselves at or around the same time as they buy or sell securities for Clients' account(s). To address this conflict, it is our policy that neither our firm or access persons shall have priority over Clients' accounts in the purchase or sale of securities.

Item 12: Brokerage Practices

Factors Used to Select Custodians

ZI does not have any affiliation with any custodian we recommend. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

In recommending custodians, we have an obligation to seek the "best execution" of transactions in Client accounts. The determinative factor in the analysis of best execution is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the custodian's services. The factors we consider when evaluating a custodian for best execution include, without limitation, the custodian's:

- Combination of transaction execution services and asset custody services (generally without a separate fee for custody);
- Capability to execute, clear, and settle trades (buy and sell securities for your account);
- Capability to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.);
- Breadth of available investment products (stocks, bonds, mutual funds, exchange-traded funds (ETFs), etc.);
- Availability of investment research and tools that assist us in making investment decisions
- Quality of services;

- Competitiveness of the price of those services (commission rates, margin interest rates, other fees, etc.) and willingness to negotiate the prices;
- Reputation, financial strength, security and stability;
- Prior service to us and our clients.

With this in consideration, our firm recommends Charles Schwab “Schwab” and/or Altruist Financial “Altruist”, independent and unaffiliated SEC registered broker-dealer firms and members of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”). Although Clients may request us to use a custodian of their choosing, we generally recommend that Investment Management Clients open brokerage accounts with Schwab or Altruist. We are not affiliated with Schwab or Altruist. The Client will ultimately make the final decision of the custodian to be used to hold the Client’s investments by signing the selected custodian’s account opening documentation. For retirement plan management clients, the custodian(s) recommended for plan assets may vary based on the size and needs of the plan. These custodian recommendations will be discussed with the plan sponsor and will still be based on many of the above factors.

Schwab Advisor Services™ is Schwab’s business serving independent investment advisory firms like us. They provide our Clients and us with access to their institutional brokerage services (trading, custody, reporting and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our Clients’ accounts, while others help us manage and grow our business. Schwab’s support services are generally available on an unsolicited basis (we don’t have to request them) and at no charge to us. The benefits received by Advisor or its personnel do not depend on the number of brokerage transactions directed to Schwab. As part of its fiduciary duties to Clients, Advisor at all times must put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor’s choice of Schwab for custody and brokerage services. This conflict of interest is mitigated as Advisor regularly reviews the factors used to select custodians to ensure our recommendation is appropriate. Following is a more detailed description of Schwab’s support services:

1. **Services that benefit you.** Schwab’s institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our Clients. Schwab’s services described in this paragraph generally benefit you and your account.
2. **Services that may not directly benefit you.** Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our Clients’ accounts. They include investment research, both Schwab’s own and that of third parties. We may use this research to service all or a substantial number of our Clients’ accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- provide access to Client account data (such as duplicate trade confirmations and account statements)
 - facilitate trade execution and allocate aggregated trade orders for multiple Client accounts
 - provide pricing and other market data
 - facilitate payment of our fees from our Clients' accounts
 - assist with back-office functions, recordkeeping, and Client reporting
3. **Services that generally benefit only us.** Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:
 - Educational conferences and events
 - Consulting on technology, compliance, legal, and business needs
 - Publications and conferences on practice management and business succession
 4. **Your brokerage and custody costs.** For our Clients' accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees.

ZI offers investment advisory services through the custodial platform offered by Altruist Financial LLC and its current clearing firm, Apex Clearing Corporation (each unaffiliated SEC-registered broker dealers and FINRA/SIPC members), including by virtue of no commissions on orders executed through them, fully digital account opening process, the variety of available investments, and integration with software tools that can benefit ZI and its clients.

Research and Other Soft-Dollar Benefits

We do not have any soft-dollar arrangements with custodians whereby soft-dollar credits, used to purchase products and services, are earned directly in proportion to the amount of commissions paid by a Client. However, as a result of being on their institutional platform, Charles Schwab may provide us with certain services that may benefit us.

Brokerage for Client Referrals

We receive no referrals from a custodian, broker-dealer or third party in exchange for using that custodian, broker-dealer or third party.

Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific custodian to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transactions and this may cost Clients money over using a lower-cost custodian.

Aggregating (Block) Trading for Multiple Client Accounts

Generally, we combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The

distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion, regarding particular circumstances and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or access persons may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13: Review of Accounts

Periodic Reviews

Clients who engage us for investment management services will have their account(s) reviewed regularly on a quarterly basis by Colin Zizzi, Founder and CCO or Brennan Zizzi, Co-founder and Investment Advisor. The account(s) are reviewed with regards to the Client's investment policies and risk tolerance levels.

Triggers of Reviews

Events that may trigger a special review would be unusual performance, addition or deletions of Client-imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Review Reports

Clients will receive trade confirmations from the custodian(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

ZI does not provide written performance or holdings reports to Investment Management Clients outside of what is provided directly by their custodian as part of their account statements.

Item 14: Client Referrals and Other Compensation

Compensation Received by Zizzi Investments, LLC

ZI is a fee-only firm that is compensated solely by its Clients. ZI does not receive commissions or other sales-related compensation. Except as mentioned in Item 12 above, we do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients.

Client Referrals from Solicitors

ZI does not, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

Item 15: Custody

ZI is deemed to have limited custody solely because advisory fees are directly deducted from the client's account by the custodian on behalf of ZI. ZI does not accept custody of Client funds except

in the instance of withdrawing Client fees. ZI will employ the safeguards provided in Regulation 303.042 clauses 3(i) A-C as outlined below:

- a. Possess written authorization from the client to deduct advisory fees from an account held by a qualified custodian
- b. Send the qualified custodian written notice of the amount of the fee to be deducted from the client's account.
- c. Send the client an itemized invoice including any formulae used to calculate the fee, the time period covered by the fee, and the amount of assets under management on which the fee was based.

In jurisdictions where required, ZI will send an itemized invoice to the Client at the same time it instructs the custodian to debit the advisory fee. Itemization includes the formula used to calculate the fee, the amount of assets under management the fee is based on, and the time period covered by the fee.

We urge you to carefully review custodial statements and compare them to the account invoices or reports that we may provide to you and notify us of any discrepancies. Clients are responsible for verifying the accuracy of these fees as listed on the custodian's brokerage statement as the custodian does not assume this responsibility. Our invoices or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

For those Client accounts where we provide Investment Management Services, ZI has discretionary authority and limited power of attorney to determine the securities and the amount of securities to be bought or sold for a Client's account without having to obtain prior Client approval for each transaction. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will execute a Limited Power of Attorney, which will grant our firm discretion over the account(s). Additionally, the discretionary relationship will be outlined in the Advisory Contract and signed by the Client. Clients may limit our discretion by requesting certain restrictions on investments. However, approval of such requests are at the firm's sole discretion.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to our Clients, nor have we been the subject of any bankruptcy proceeding. We do not have custody of Client funds or securities, except as disclosed in Item 15 above, or require or solicit prepayment of more than \$500 in fees six months or more in advance.

Item 19: Requirements for State-Registered Advisers

Principal Officers

Colin Zizzi serves as ZI's sole principal and CCO. Information about Colin Zizzi's education, business background, and outside business activities can be found on his ADV Part 2B, Brochure Supplement attached to this Brochure.

Outside Business

All outside business information, if applicable, of ZI is disclosed in Item 10 of this Brochure.

Performance-Based Fees

Neither ZI nor Colin Zizzi or Brennan Zizzi are compensated by performance-based fees.

Material Disciplinary Disclosures

No management person at ZI has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have With Issuers of Securities

ZI nor Colin Zizzi have any relationship or arrangement with issuers of securities.

For

Colin Zizzi

Founder and Chief Compliance Officer

This brochure supplement provides information about Colin Zizzi that supplements the Zizzi Investments, LLC (“ZI”) brochure. A copy of that brochure precedes this supplement. Please contact Colin Zizzi if the ZI brochure is not included with this supplement or if you have any questions about the contents of this supplement.

Additional information about Colin Zizzi is available on the SEC’s website at www.adviserinfo.sec.gov which can be found using the identification number 6066506.

Item 2: Educational Background and Business Experience

Colin Zizzi

Born: 1988

Educational Background

- 2010 – BS Business Administration - American University

Business Experience

- 10/2022 – Present, Zizzi Investments, LLC, Founder, Owner and CCO
- 10/2012 – 10/2022, Cambridge Investment Research Advisors, Inc., Investment Advisor Representative

Professional Designation(s)

CFP® (Certified Financial Planner):

Colin Zizzi is certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board"). Therefore, Colin Zizzi may refer to himself as a CERTIFIED FINANCIAL PLANNER™ professional or a CFP® professional, and Colin Zizzi may use these and CFP Board's other certification marks (the "CFP Board Certification Marks"). The CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP® certification. You may find more information about the CFP® certification at www.cfp.net.

CFP® professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- Education – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirements through other qualifying credentials.
- Examination – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual's ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- Experience – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- Ethics – Satisfy the Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement and agree to be bound by CFP Board's Code of Ethics and Standards of Conduct ("Code and Standards"), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- Ethics – Commit to complying with CFP Board’s Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- Continuing Education – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.

AIF® (Accredited Investment Fiduciary):

The AIF® designation certifies that the recipient has specialized knowledge of fiduciary standards of care and their application to the investment management process. The certification is administered by the Center for Fiduciary Studies, LLC (a Fiduciary 360 company). AIF® designation requirements are:

- Complete a training program;
- Pass a comprehensive, closed-book final examination under the supervision of a proctor;
- Agree to abide by the AIF® Code of Ethics
- Complete six hours of continuing education credits every year; and
- Renew, on an annual basis, affirmation of the AIF® Code of Ethics

CEPA® (Certified Exit Planning Advisor):

Conferred by the Exit Planning Institute, the CEPA program is designed for business advisors who work closely with owners of privately-held companies. CEPA advisors help business owners exit their companies while achieving their personal, business, and financial goals. Using an executive MBA style format, the program is designed around a central case study and uses a combination of lectures, group discussions, case studies, and individual exercises to introduce participants to concepts and to reinforce skills. To receive the CEPA designation, candidates complete a rigorous 5-day program consisting of approximately 100 hours of pre-course study, 33 hours of classroom instruction, and successful completion of a 3.5 hour proctored examination.

Item 3: Disciplinary Information

Colin Zizzi has never been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Item 4: Other Business Activities

Colin Zizzi is not involved with outside business activities.

Item 5: Additional Compensation

Colin Zizzi does not receive any economic benefit from any person, company, or organization, in exchange for providing Clients advisory services through ZI.

Item 6: Supervision

Colin Zizzi as Chief Compliance Officer of ZI, supervises the advisory activities of our firm. Colin Zizzi is bound by and will adhere to the firm's policies and procedures and Code of Ethics. Clients may contact Colin Zizzi at the phone number on this brochure supplement.

Item 7: Requirements for State Registered Advisers

Colin Zizzi has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
